\* presenting author

## Workshop Chair—Cheryl Dunn

Cheryl Dunn is an associate professor at Grand Valley State University. Cheryl's research interests focus on REA accounting systems and cognitive aspects of conceptual modeling. Cheryl has authored textbooks on REA accounting systems. Her research has appeared in *Journal of the Association for Information Systems*, *Communications of the Association for Information Systems*, *Decision Sciences*, *Journal of Information Systems*, and *International Journal of Accounting Information Systems*. Cheryl has served in leadership positions in the Association for Information Systems' Sig-ASYS group and in the American Accounting Association's Accounting Information Systems and Strategic & Emerging Technologies sections. She earned her PhD in Accounting with a minor in Accounting Information Systems at Michigan State University.

## Program Co-Chairs—Brad Trinkle and Tawei (David) Wang

Brad S. Trinkle is an Assistant Professor and the Linda Garrett Fellow in the Adkerson School of Accountancy at Mississippi State University. He holds a PhD in Accounting from The University of Alabama. Brad is a behavioral researcher focusing on information security, financial disclosures via social media, and ethics. His work has appeared in *Journal of Information Systems*, *International Journal of Accounting Information Systems*, *Critical Perspectives on Accounting*, *Journal of Emerging Technologies in Accounting*, *Intelligent Systems in Accounting, Finance, and Management*, *Advances in Accounting Education*, and other outlets.

Tawei (David) Wang is an assistant professor at DePaul University. He received his PhD from Purdue University. His primary research areas are IT management and information security management. He has published in leading academic journals, including *Information Systems Research*, *Decision Support Systems*, *European Journal of Information Systems*, *Information and Management*, *Information Systems Journal*, *Journal of Accounting and Public Policy*, *Journal of Banking and Finance*, *Journal of Information Systems*, among others. He has received various research and teaching awards. He is a minitrack co-chair of HICSS and track co-chair of PACIS 2016.
